

# **Integrated Biorefinery Processes: the Role of Anaerobic Digestion**

Maria Loizidou

*School of Chemical Engineering National Technical University of Athens, Greece*

## **Abstract**

Only abstracts in English will be accepted. Please use British spelling (e.g. colour vs color). Keep text in single paragraph. Prefer SI units, use space between number and unit (keep % and  $\pm$  signs with number). When using references, please format as Smith et al. (2021) or (Smith et al., 2021) and include full reference list after the abstract (also include the title References before actual references). Write text directly on the form or use the functionality "paste as plain text". Alternatively you can first copy the text in a notepad and then on the form. This will ensure text editor formatting is removed which is required for pdf production. **References** Smith, J., Brown, E.F., Green, S., 2021. On using references. *Journal of Conferences*, 2 (1) p.5-8. doi: 123.123xx.123
